The world's population lives in many different countries on Earth. However, they are not divided **evenly** between all the countries. There are some countries that are very **overcrowded**. There are other countries that seem like they have very few people living in them. Why are people **spread** around the world so unevenly? There are advantages, or good things, about living in a certain place. There are also disadvantages, or bad things, about the same place.

Two main factors that **influence** people who are deciding on a location to live are **climate** and resources. Climate is the usual weather conditions in a region. Areas that have extreme weather are not very popular places to live. The North Pole and South Pole at the top and bottom of the world are good examples. They are beautiful in their **rugged**, natural way. However, the disadvantage of the very cold and windy conditions usually keeps people away.

Natural resources are things that we get from nature that help us **survive**. Each region offers different **resources**. Each region attracts different groups of people. People who enjoy the beach can make their living from the ocean. They can catch and sell fish and other sea creatures. Some people prefer to farm. They can take advantage of rich soil in valleys near rivers. People may be willing to put up with the disadvantages of an area if the advantages are good. The desert is very hot and dry, but it often has **valuable** mineral deposits. If the resources are worth enough, people may be willing to live in the desert heat.

Gerund & Infinitive

What is a Gerund?

A gerund is a noun made from a verb. To make a gerund, you add "-ing" to the verb.

For example:

In the sentence "I swim every day", the word "swim" is a verb.

In the sentence "I like swimming", the word "swimming" is a noun.

Therefore, "**swimming**" is a **gerund**.

What is an Infinitive?

An infinitive is the basic form of the verb + "to".

Examples: to buy, to fish, to run, to watch, to tell, and so forth.

Example Sentences:
